### The World At Your Finger Tips

Splice.com's PCS 573G and PCS 563 phones have been specifically designed to be easy to use and so save time and improve the effective performance of every business phone user.

The wide range of productivity enhancing applications and services available through the PCS 573G and PCS 563 IP phones are all accessed via intuitive multi-functional, context sensitive keys, grouped around the large, full colour, graphics display.

### Consistent Operation Across Locations And Devices

SelectVoice's unique distributed, single system architecture delivers true Hot Desk facilities for employees moving between locations and/or devices; PCS deskphones and Navigate Pro/iPCS softphones. This allows your personal attributes to be automatically set and DDI calls, departmental hunt group calls and voicemail to be delivered to you wherever you choose to work, totally independent of geographical location and/or the device you choose to handle your calls on.

Simply log-in to your device of choice – or one in any office throughout your business – and it will automatically load your complete profile. This includes Navigate softphone for Windows PCs and iPCS softphone for Apple, Android and Windows smartphones as well as PCS desk phones.
